## Special modeling

## ■ Project development on commission

We realize projects like films, TV programs, visual contents, characters, toys & hobby products, events, etc. based on our unique & maniac viewpoints.

- Custom development orders
- You want to make a film? Yes, we can!
- Original corporate/business mascots
- Bizarre and unique project proposals
- Project planning based on client's visions
- Domestic and global expansion plan

## ■ Film & TV program production

We are the only studio in Japan equipped with inhouse production, development, CG, and special modeling units, all of which are in operation on a full-time basis. We take orders for efficient & high-quality visual production, theatrical release, distribution, sale, and overseas expansion.

- Film & visual product planning & making
- Preproduction
- Casting
- Arrangement of production structure
- Release, distribution, and sale
- Commercialization (e.g. DVD, Blu-ray)

## ■ CG & Special-effect production

Engaged in the production of numerous CG works since the earliest days of CG. Experiences of special-effect filming at Tsuburaya Productions. We take orders for a wide range of productions, including special-effect, CG & VFX effects, full-scale CG movie, real-time CG, and video for game machines.

- Full CG visuals
- CG&VFX
- 3D modelling
- Overall special effects
- Special-effect filming
- Digital processing live action

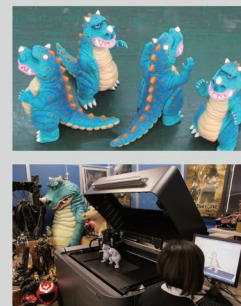

## ■ Production of special models
